Personal Profile:

I am soon to be a graduate of York St John University. I am a practitioner, creator and performer in Drama and Theatre. By working as a door-to-door Sales Representative, I developed customer service and communication skills in a range of environments. In studying Drama and Theatre, I have developed my versatility as a performer, practitioner and facilitator. From performing in York Mystery Plays and York Shakespeare Project, I have demonstrated my skills as a performer and dedication to the artistic traditions of York. After I graduate, I aspire to be a freelance theatre artist who works within a professional theatre company. Alongside this, I aspire to work full time to subsidise my freelance career.
